### FEDEX FREIGHT OR COMMON CARRIER/LTL SHIPMENTS

Typically used for large orders of 40 trays or more (20 poinsettia trays or more) and is typically more cost-effective per plug or liner than FedEx 2-day. Orders are boxed, stacked on a pallet, then surrounded with shrink wrap for maximum protection of our high quality young plants.

Delivery times are generally 1-2 days throughout the Southeastern US. This service is not temperature controlled.

Rates are determined individually at the time of shipping, prepaid, and added to the invoice.

### WINTER BOX CHARGE IS \$10 PER BOX

Knox Nursery uses cold weather boxing only when temperatures at the destination or at the shipping hub are forecasted to be below freezing.

We delay shipping during the week when possible until forecasts show destination or shipping hub warming trends.

### DELIVERED PRICING BOXING CHARGE IS \$10 PER BOX

Knox Nursery offers selected high-volume customers (for Plugs from Seed and Tissue Culture) pricing plans that include delivery in their price per plug quote. No freight costs are charged to these customers.

Our boxing fee is charged to these customers only when the total order tray quantity does not meet minimums to qualify for truck delivery. These orders will continue to be shipped without freight charges.

All orders booked for customers on standard pricing plans will ship without boxing costs.

### ARIZONA CUSTOMERS

Due to Arizona Department of Agriculture Quarantine Requirements, Knox Nursery can only ship to customers in Arizona that have an Approved Holder Area. Shipments must be sent via FedEx Express, not Freight or Common Carrier/LTL. An \$80 fee for mandatory Phytosanitary certificate will be added to the invoice.
